

VIRTUALIZATION & PCI

WTF MATE?

disoray

disoray [at] thelug [dawt] org

So, uh....

- ▣ I was supposed to do this awesome presentation on PCI, and what is being done to address Virtualization.
- ▣ I've been informed (yesterday) that I'm not allowed to share our stuff, and I should provide the link to download the webinar that was recently presented on the topic.
- ▣ Here is that link:
 - <http://recordings.talkshoe.com/rss34217.xml>
 - Or, for iTunes users, go to Podcasts and search for Episode #24 of the "Virtualization Security Roundtable – PCI"

Thank you for your time.
